This is to certify that
Kingland Fanja

12 months 59/28.5 Well above medium size, medium strong, black and gold female with good substance and slightly stretched proportions height to length. Very good colour and pigment. Strong feminine head with good expression, good mask, the ears are set slightly low on the skull. Strong powerful neck, level wither, straight back well moulded croup. Very good fore and slightly deep hindquarter angulation, very good fore and good under chest, the foreleg should be just a little longer, standing not quite correct in front. Stepping a little narrow at rear the tail bounces off the hocks, the elbows should be firmer. In movement the tail shows a slight cast to the left with good drive and slightly restricted reach. Slight tendency to fall a little on the forehand.

Has been awarded the
GSDCA Grading of
Very Good
